**Subject:** Performance Committee - Attendance Statistics

Sue – please can you send the email below to members of the performance committee.

At the last Committee we were asked to provide comparative statistics for the BVPI12. The council has just provided us with the following bvpi12 outturns for 2006-7. The Resources division have been split in order to focus on divisional rather than department results, following changes to department structures:

Housing and Advice Services	9.79
Community Safety Partnership	7.51
Resources, Corporate Finance	5.82
Resources, Customer Services	11.75
Resources, Financial Services	9.43
Resources, Information Technology	6.74

The calculation for our BVPI 12 outturn for 2006/7 has been delayed following the transfer to Active Health Partners. We are continuing to work with AHP on this issue.
