2. RECOMMENDATION

Operational Board to note the report.

3. MATTER FOR CONSIDERATION

3.1 The attached table shows some key statistics for Derby Homes ASB service. These are based on the former RESPECT standard statistics, and also some other statistics which we hope Operational Board members will find useful.

| 7 | Number of perpetrator supportive actions taken and support service referrals for victims and perpetrators of ASB. | 231 |
|----|-------------------------------------------------------------------------------------------------------------------|------|
| 8 | Percentage of respondents satisfied with the way their ASB complaint was dealt with | 94% |
| 9 | Percentage of respondents satisfied with the outcome of their ASB complaint | 89% |
| 10 | Number of perpetrators evicted for ASB | 1 |
| 11 | Average cost of an ASB case not including legal costs. | £309 |
| 12 | Number of contacts made to complainants in Qtr 2 | 1743 |

- 3.3 PI 2 shows that at the end of the quarter we had 219 cases being worked on. Around half of those are noise nuisance cases
- 3.4 PI 3 shows the number of cases closed in the quarter where the complainant has told us the ASB has now stopped
- 3.5 PI 4 shows cases which we have had to close 'unresolved'. This is where we have had to close a case because there is nothing more we can do, but the complainant is not satisfied and believes the problem is still happening. This sometimes happens in 'clash of lifestyle' cases

There was only 1 cases closed unresolved during the quarter. Our performance in this area is now very good.

3.6 The vast majority of ASB is not resolved by the use of formal Court action. It is resolved by the use of a range of 'early interventions' which are informal warnings, letters and visits carried out by the ASB team and other staff who support the process. PI 5 shows that there were 586 early intervention actions carried out during the quarter. These break down as follows

| Action | Number |
|----------------------------------------------------------------------------|--------|
| | |
| Verbal and written warnings | 157 |
| Other contact with alledged perpetrator | 270 |
| Cases where CCTV , noise monitoring equipment and Noise App have been used | 54 |

| ABC's and Parenting Contracts | 13 |
|-----------------------------------------------------------|----|
| Complex Needs | 5 |
| Mediation referrals | 10 |
| Family Intervention Project / Priority Families referrals | 0 |
| Junior Wardens (Mash Up) and Enthusiasm referrals | 3 |
| Police referrals | 67 |
| Contacts made with Adult Social Care | 7 |

3.7 As explained in 3.4, the number of cases where we have to use enforcement action is relatively small. This is also the case throughout the country. However PI 6 shows the number of enforcement actions taken during the quarter. This breaks down as follows

| Action | Number |
|------------------------------------------------|--------|
| Injunctions | 2 |
| Notices of Seeking possession | 3 |
| Notice of Extension of an introductory tenancy | 2 |

- 3.8 In addition to supporting victims of ASB, it is also very important to provide support to alleged perpetrators. Some have problems with mental health, drugs and alcohol and often the best way to resolve the ASB is to provide support and make referrals to other services who can help. PI 7 shows the number of these actions for the quarter.
- 3.9 PI 8 and PI 9 show satisfaction levels for the quarter. Our performance is very good.
- 3.10 PI 11 shows the total staffing cost per case for the quarter. Derby Homes is actually one of the best value for money ASB services in terms of direct staffing costs when compared to our comparitors on Housemark. This figure does not include legal costs.
- 3.11 Derby Homes has had a long standing target for a minimum of monthly feedback to complainants of ASB. This was one of the former 'tenants top ten targets' and 'local offers'. Whilst this remains in Derby Homes ASB Policy and Procedure as a bare minimum, the procedure makes clear that much more frequent contact is expected, and that this must be agreed with the complainant in the action plan. The frequency and type of contact depends on a number of factors but particularly
 - The level of vulnerability of the complainant. An intitial risk a assessment is carried out which is reviwed throughout the case
 - The nature and seriousness of the case itself and the risk to the complainant
 - The wishes of the complainant they can request how they want feedback and contact with us.

This means that I would expect the total number of contacts in a month to be very much higher than one per case. PI 12 shows that ther were 1743 contacts with victims during the quarter. As the total number of cases was 219 at the end of the quarter, this equates to an average of 8 contacts per case each month. As explained, some complainants will have a lot more than 8 in the month, some will have less but none will have less than one.
