- 3.2 PI 5 shows that we had 159 cases being worked on at the end of the quarter. That figure fluctuates throughout the year and is higher in the summer months. Around half of those are noise nuisance cases
- 3.3 PI 3 shows the number of cases closed in the quarter where the complainant has told us the ASB has now stopped.
- 3.4 PI 4 shows cases which we have had to close 'unresolved'. This is where we have had to close a case because there is nothing more we can do, but the complainant is not satisfied and believes the problem is still happening. This sometimes happens in 'clash of lifestyle' cases. There were no cases closed unresolved during the quarter.
- 3.5 PI 8 and PI 9 show satisfaction levels for the quarter. Satisfaction levels are now consistently good
- 3.6 The vast majority of ASB is not resolved by the use of formal action. It is resolved by the use of a range of non legal actions which are informal warnings, letters and visits carried out by the ASB team and other staff who support the process. PI 6 shows that there were 1293 non legal actions carried out during the quarter. These break down as follows.

Action	Number
Verbal and written warnings	180
Community Protection Warnings and Community Protection Notices	15
General contact with alleged perpetrators including supportive actions	160
General contact with alleged complainants including supportive actions	188
Cases where CCTV, Crime Prevention, Noise Monitoring Equipment and Noise App have been used	217

3.7 As explained in 3.5, the number of cases where we have to use enforcement action is relatively small. This is also the case throughout the country. However PI 7 shows the number of enforcement actions taken during the quarter. This breaks down as follows

Action	Number
Injunctions	1
Notices of Seeking Possession	5
Extensions of Tenancy	6
Notice of Demotion	0
Absolute Grounds for Possession	0
Evictions	0
SPO	1

- 3.8 Derby Homes has had a long standing target for a minimum of monthly feedback to complainants of ASB. Whilst this remains in Derby Homes ASB Policy and Procedure as a bare minimum, the procedure makes clear that much more frequent contact is expected, and that this must be agreed with the complainant in the action plan. The frequency and type of contact depends on a number of factors but particularly
 - The level of vulnerability of the complainant. An intitial risk a assessment is carried out which is reviwed throughout the case
 - The nature and seriousness of the case itself and the risk to the complainant
 - The wishes of the complainant they can request how they want feedback and contact with us

I would expect the total number of contacts in a month to be very much higher than one per case. PI 11 shows that there were 2766 contacts with complainants during the quarter. As the total number of cases was 159 at the end of the quarter, this equates to an average of around 6 contacts per case each month. As explained,

- some complainants will have a lot more than 6 in the month, some will have less but none will have less than one.
- 3.9 Approximately half of all ASB cases involve or are entirely noise nuisance. This means that Derby Homes ASB team works very closely with the Council's Environmental Services team. We are seeing an increase in Community Protection Warning Notices(CPNW's) served by Derby Homes then escalated to Community Protection Notices (CPNs) by Environmental Services. Those tenants breaching CPNs are then served Fixed Penalty Notices.
- 3.10 Derby Homes ASB Manager in conjunction with RESOLVE ASB and a small number of other ASB Housing Providers and Community Safety Partnerships have been working on a proposal to develop an ASB Officer Apprenticeship, the first of its kind in the industry.
- 3.11 Work started during the quarter with Derby City Council to develop a memorandum of understanding with the City Council around the operations of Public Protection Officers. This will define roles and responsibilities around community protection and ASB and make sure that the service around these themes is enhanced
