

Quarter 4: January - March 2020

Customer Satisfaction Survey Results

Appendix 1

Introduction

The Customer Satisfaction Survey has been delivered over the phone or in person throughout the quarter in order to measure customers' overall satisfaction with services provided by Derby Homes. The results from the survey have been analysed overall and comments have been included in the report.

A few of our satisfaction results listed feed directly into our performance management framework which is reported to The Council (named DORIS). The remaining feedback we use to inform our service delivery. All customer comments are passed weekly to service managers to ensure no feedback is lost. Managers are asked to provide an outcome following the customer comments and provide information about the actions that have taken place, to show how feedback is captured and actioned in line with the Customer First Strategy.

This year we have suggested a target for all of our figures which has not been done previously. We used the past 2 years' results to help set the targets.

Please note that the number of surveys completed this quarter is lower than usual due to Covid-19 and staff sickness.
