- 3.3 PI 5 shows that we had 206 cases being worked on at the end of the quarter. That figure fluctuates throughout the year and is higher in the summer months. Around half of those are noise nuisance cases
- 3.4 PI 3 shows the number of cases closed in the quarter where the complainant has told us the ASB has now stopped.
- 3.5 PI 4 shows cases which we have had to close 'unresolved'. This is where we have had to close a case because there is nothing more we can do, but the complainant is not satisfied and believes the problem is still happening. This sometimes happens in 'clash of lifestyle' cases. There were only 5 closed unresolved during the quarter. A figure of 98% closed resolved is very good.
- 3.6 PI 8 and PI 9 show satisfaction levels for the quarter. Satisfaction levels are now consistently good.
- 3.7 The vast majority of ASB is not resolved by the use of formal action. It is resolved by the use of a range of non legal actions which are informal warnings, letters and visits carried out by the ASB team and other staff who support the process. PI 6 shows that there were 1357 non legal actions carried out during the quarter. These break down as follows.

Action	Number
Verbal and written warnings	159
Community Protection Warnings and Community Protection Notices	13
General contact with alleged perpetrators including supportive actions	220
General contact with alleged complainants including supportive actions	223
Cases where CCTV, Crime Prevention, noise monitoring equipment and Noise App have been used	103
Liaison & joint work with Environmental Protection	4
ABC's and Parenting Contracts	6
Complex Needs / Tenancy Sustainability Referrals	5
Mediation referrals both internal and external	2

Version: 12.0 Title: FO-Bo Modified: December 3, 2019

Contacts with Police and E-CINS referrals	608
Contacts made with Adult Social Care, Mental Health and Safeguarding	5
External Victim Support	9

3.8 As explained in 3.5, the number of cases where we have to use enforcement action is relatively small. This is also the case throughout the country. However PI 7 shows the number of enforcement actions taken during the quarter. This breaks down as follows:

Action	Number
Injunctions	0
Notices of Seeking Possession / NOPP	3
Extensions of Tenancy	0
Notice of Demotion	0
Absolute Grounds for Possession	0
Evictions	1

- 3.9 Derby Homes has had a longstanding target for a minimum of monthly feedback to complainants of ASB. Whilst this remains in Derby Homes' ASB Policy and Procedure as a bare minimum, the procedure makes clear that much more frequent contact is expected, and that this must be agreed with the complainant in the action plan. The frequency and type of contact depends on a number of factors but particularly
 - The level of vulnerability of the complainant. An intitial risk a assessment is carried out which is reviwed throughout the case
 - The nature and seriousness of the case itself and the risk to the complainant
 - The wishes of the complainant they can request how they want feedback and contact with us

I would expect the total number of contacts in a month to be very much higher than one per case. PI 11 shows that there were 3069 contacts with complainants during the quarter. As the total number of cases was 206 at the end of the quarter, this equates to an average of around 5 contacts per case each month. As explained, some complainants will have a lot more than 5 in the month, some will have less but none will have less than one.

3.10 Approximately half of all ASB cases involve or are entirely noise nuisance. This means that Derby Homes ASB team works very closely with the Council's Environmental Services team. We are seeing an increase in Community Protection Warning Notices(CPNWs) served by Derby Homes then escalated to Community

Protection Notices (CPNs) by Environmental Services. Those tenants breaching CPNs are then served Fixed Penalty Notices.

Two seizures of audio equipment from Derby Homes managed properties have taken place during the quarter.

- 3.11 During the quarter the ASB Team helped promote the Knife Angel by providing staff to act as marshals at Cathedral during the weekend of October.
- 3.12 The ASB Team are working with the REST team as rough sleepers are often identified in the communal areas of Derby Homes blocks near the City Centre. The REST team carry out outreach work with rough sleepers and signpost people to other services
