1. PERFORMANCE MONITORING

1.1 VOIDS & LETTINGS AND ENSURING CHOICE AND ACCESS TO COUNCIL HOUSING

Purpose

- To minimise the number of empty council homes within the city to make sure properties are secure, and vandalism and rent loss are minimised by speedy reletting.
- To achieve targets set in the Derby Homes Delivery Plan 2003/04
 - Aim to reduce average relet time to 37 days which represents top quartile performance on empty properties
 - Aim to reduce the turnover of vacant properties to 11.5%
 - Empty Property Target for 2003/04 of 1% of stock (active voids)

Commentary

- The average time to relet properties was 23 days for July and 30 days for August. This represents excellent performance across all of our offices.
- Numbers of active voids remains below 1% of total stock and rent loss is running at a level in line with the target.
- Over the next 2 3 months a number of passive voids will be returning into stock following the completion of improvement work, this will have a positive effect on levels of void properties and rent loss. Work is ongoing to further reduce the numbers of long-term voids.

Commentary

- Performance on inspecting empty properties and placing orders within 5 working days of receiving keys is continuing to improve. The introduction of hand-held devices due November/December 2003 is expected to bring about further improvement.
- Performance on answering Housing hotlines is 91% and is above target.
- Performance on responding to anti social behaviour complaints is above target. This reflects the fact that our staff give a high priority to addressing anti social behaviour and we will endeavour to maintain this standard.
